Technical Textile Yarns (Woodhead Publishing Series in Textiles) From Woodhead Publishing

Technical yarns are produced for the manufacture of technical textiles. As the range of technical textiles is rapidly increasing, an understanding of the range of yarns available and their properties is important, in order to be able to meet the requirements of the intended end-use.

Part one of the book begins by reviewing the advances in yarn production. Topics examine the advances in textile yarn spinning, modification of textile yarn structures, yarn hairiness and its reduction and coatings for technical textile yarns. The second group of chapters describes the range of technical yarns, such as electro-conductive textile yarns, novel yarns and plasma treated yarns for biomedical applications. Technical sewing threads and biodegradable textile yarns are also discussed.

Technical textile yarns provides essential reading for yarn and fabric manufacturers, textile scientists, technicians, engineers and technologists, covering a wide range of areas within textile applications. This book will also be an important information source for academics and students.

- Provides a comprehensive overview of the variety of technical textile yarns available along with individual characteristics and production methods
- Documents advances in textile yarn spinning and texturising featuring compact, rotor and friction spinning
- Assesses different types of technical yarns including plasma-treated yarns for biomedical applications and hybrid yarns for thermoplastic composites

Editorial Review

About the Author

Dr R. Alagirusamy is Professor in the Department of Textile Technology at Indian Institute of Technology, New Delhi. He has completed his Ph.D. from Georgia Tech, USA. He has authored several chapters in bestsellers in textiles and possesses several research papers published in reputed national and international journals.

Dr Apurba Das is Associate Professor in the Department of Textile Technology, Indian Institute of Technology (IIT), New Delhi, India. He has wide experience in industries, including research and development and quality management. He has published more than 100 research papers in journals and conferences and written chapters in several books. His main areas of teaching and research interests include clothing comfort, yarn manufacturing, non-conventional spinning techniques, evaluation of textile materials and technical textiles.

Users Review

From reader reviews:

James Dungan:

Book is to be different for every single grade. Book for children right up until adult are different content. We all know that that book is very important for us. The book Technical Textile Yarns (Woodhead Publishing Series in Textiles) has been making you to know about other expertise and of course you can take more information. It is very advantages for you. The guide Technical Textile Yarns (Woodhead Publishing Series in Textiles) is not only giving you more new information but also to become your friend when you sense bored. You can spend your current spend time to read your book. Try to make relationship with all the book Technical Textile Yarns (Woodhead Publishing Series in Textiles). You never experience lose out for everything in the event you read some books.

Karen Johnson:

As people who live in the modest era should be upgrade about what going on or details even knowledge to make these individuals keep up with the era that is certainly always change and progress. Some of you maybe will certainly update themselves by examining books. It is a good choice for yourself but the problems coming to a person is you don't know what kind you should start with. This Technical Textile Yarns (Woodhead Publishing Series in Textiles) is our recommendation so you keep up with the world. Why, because this book serves what you want and want in this era.

Robert Rochester:

Information is provisions for anyone to get better life, information currently can get by anyone in everywhere. The information can be a expertise or any news even a problem. What people must be consider

while those information which is in the former life are hard to be find than now is taking seriously which one would work to believe or which one the actual resource are convinced. If you obtain the unstable resource then you buy it as your main information you will see huge disadvantage for you. All those possibilities will not happen with you if you take Technical Textile Yarns (Woodhead Publishing Series in Textiles) as your daily resource information.

Catherine Taylor:
