BABY-EGG Pregnancy Countdown Calendar By Anita Schneider

First ever 38 LIFE-SIZE illustrations calendar of the unborn developing baby, conception to birth (week by week). ACTUAL SIZE is the main point of this calendar, it is a companion to any pregnancy book and not a pregnancy book in itself. 38 simple outline pencil art drawings showing ACTUAL SIZE of the baby. (not in color) Instead of comparing the size of the unborn child to fruits and vegetables, this is the better answer to one of the most frequently asked questions during pregnancy: "How BIG is the baby?" -The pages are bound by a pink and blue ribbon for use with the BABY EGG wall hook. (Similar to a flip-chart.) - It comes with a purple book ring for desk top use. -Enclosed is a fridge magnet for single page use. -The egg-shaped pages and drawings get larger as the baby grows. -On the back of each page is a reduced size baby with a text bubble: containing positive "NEWS from the WOMB" and changes in development such as thumb sucking , opening of eyes, measurements and more. The individual pages are easily removed if you would like to take it along with you and show the size of your baby to others. Each calendar is hand assembled by a pink and blue ribbon to maintain the cute feel of the original hand made prototype. It is the best present you can give to expecting parents.

Editorial Review

From the Publisher

I use the BABY EGG in biology class and the kids were deeply impressed and liked it a lot. --**Teacher**

I would like to thank you again for the Babyegg calendar. It has become a ritual to us to turn the page each week. (Sunday for us, R. does the honors of reading the blurb on the baby's development.) It is a big hit in our house and stands apart from any other pregnancy calendar or planner on the market. Thanks. --**Customer feedback**

It is so simple and clear. The point that it helps bonding with the baby is superb. --**Psychology student part of survey group**

The BABY-EGG calendar just arrived. WOW! IT IS AMAZING. Thank you so much. What a beautifully done project. --**Customer**

This is a very useful and cute idea. Simple and clear, it will help bonding with the unborn baby. The baby's NEWS from the WOMB on the back are funny and cool. --**Psychologist from survey group**

I use this calendar in biology class and the kids were deeply impressed and liked it a lot since the actual size is the main point. --**Teacher**

From the Author

I worked on this for 2 years using many pencils and erasers. I wanted to give an alternative answer to the question "How BIG is the baby". This question is asked millions of times all over the world and the common answer is: ...the size of a bean or a plum or an orange,etc. Now you can get a mental image of the actual size of the unborn baby by using the BABY-EGG calendar. As a former nurse I know that a simple anatomical chart can do wonder for people's understanding of their bodies. I kept the illustrations simple and very neutral.

About the Author

Born and raised in Switzerland where she got a degree in Nursing. Moved to the USA in early 80ies. As a former Registered Nurse she saw the need to find a better way for prenatal bonding and so created the BABY-EGG Calendar in 2005.
