Editorial Review

From the Publisher
Includes five engaging, real-world projects that go beyond the basics to cover such JavaScript topics as conditionals, functions, objects, properties, methods, event handlers, forms, and frames. Unique Shelly Cashman project orientation defines the problem, analyzes it, and then develops a solution in the most efficient way to help readers understand the Web page development cycle. Opener demonstrates how to integrate JavaScript and HTML to make Web pages interactive. Prior HTML experience required. Extensive end-of-project exercises, including the unique Cases and Places case studies that require critical thinking, reinforce the concepts and skills learned.

About the Author
Gary B. Shelly wrote and published his first computer education textbook in 1969. More than twenty million copies of Shelly Cashman Series' textbooks have been sold. Gary and a talented group of contributing authors have produced books on computer programming, computer concepts, and application software that are the leading textbooks in the computer technology market today. Gary has hosted the annual Shelly Cashman Institute, a week-long training event focusing on the latest topics in technology, for the past 34 years.

Thomas J. Cashman received his education at California State University, Los Angeles. He established one of the first business data processing programs in the U.S. at Long Beach City College in California, where he taught and served as department head. In 1969, he began collaborating with now best-selling author, Gary Shelly.

William J. Dorin is the chair of the Computer and Information Systems department at Indiana University Northwest in Gary, Indiana. He has authored or co-authored several textbooks for the Shelly Cashman Series, including JavaScript and several editions of HTML.

Jeffrey J. Quasney has worked with the Shelly Cashman Series for more than 9 years in various capacities, including as a developer of teaching tools associated with the Series' textbooks. He has authored several textbooks, including Visual Basic .NET, Microsoft Office FrontPage 2003, several editions of Microsoft Office Excel, and is a contributing author for Discovering Computers and Discovering Computers: Fundamentals Edition.

Users Review

From reader reviews:

Alicia Wescott:

It is possible to know everything

if you like open and read a reserve JavaScript: Complete Concepts and Techniques, Second Edition (Shelly Cashman Series). Kinds of book are a lot of. It means that, science publication or encyclopedia or some others. So , how do you think about this book?

Della Bailey:

What do you in relation to book? It is not important to you? Or just adding material if you want something to explain what the one you have problem? How about your spare time? Or are you busy individual? If you don't have spare time to accomplish others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? Everyone has many questions above. They need to answer that question since just their can do in which. It said that about publication. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need this specific JavaScript: Complete Concepts and Techniques, Second Edition (Shelly Cashman Series) to read.

Crystal Sanchez:

The guide with title JavaScript: Complete Concepts and Techniques, Second Edition (Shelly Cashman Series) has lot of information that you can study it. You can get a lot of advantage after read this book. This kind of book exist new information the information that exist in this publication represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. This book will bring you within new era of the glowbal growth. You can read the e-book on the smart phone, so you can read that anywhere you want.

Marni Elliott:

As a college student exactly feel bored for you to reading. If their teacher requested them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's heart or real their hobby. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this JavaScript: Complete Concepts and Techniques, Second Edition (Shelly Cashman Series) can make you sense more interested to read.
