## Disruptive: Rewriting the rules of physics By Steven B Bryant

Once in a lifetime we might witness a scientific event so rare and revolutionary that it changes our lives forever. Imagine awakening on the day in history when we learned that the Earth is round, not flat; or awakening on the day we learned that the planets orbit the Sun, not the Earth. Now, imagine awakening tomorrow to learn that Einstein's theory of relativity is wrong!

Demonstrating that Einstein's theory is wrong is a tall order. Undaunted, author Steven B. Bryant doesn't simply prove relativity wrong, he shows that relativity theory was never correct in the first place. Unencumbered by relativity, Bryant introduces Modern Mechanics, his new unified theory that is easy to understand and more accurate than Einstein's theory of relativity. In **Disruptive**, you'll learn:

- Where Einstein makes several mistakes that invalidate relativity theory and why these mistakes were not previously found.
- Why Modern Mechanics is a unified model that is more accurate than relativity theory.
- How Einstein's theory can be wrong and still provide useful – but no longer the most accurate – answers.
- How Modern Mechanics is one theory that explains experiments that previously required three: classical mechanics, relativity theory, and quantum mechanics.
- How Modern Mechanics supports faster-than-light travel and communication.

**Disruptive** is a thought-provoking book that will fundamentally transform our understanding of physics, forever changing the way we view space and time.

## **Editorial Review**

### **About the Author**

Steven B. Bryant is a subject matter leader in the relativity community of the Natural Philosophy Alliance (NPA). He has published several papers challenging Einstein's theory of relativity, and has spoken at American Association for the Advancement of Science (AAAS) and NPA conferences at universities across the United States. Steven holds a BS in Computer Science from San Diego State University and an MBA from the University of San Diego. He lives in the San Francisco Bay Area with his wife and daughter.

## **Users Review**

### **From reader reviews:**

#### **Corey Valenzuela:**

As people who live in the particular modest era should be revise about what going on or facts even knowledge to make these individuals keep up with the era that is certainly always change and advance. Some of you maybe may update themselves by looking at books. It is a good choice for you personally but the problems coming to you actually is you don't know which one you should start with. This Disruptive: Rewriting the rules of physics is our recommendation to help you keep up with the world. Why, since this book serves what you want and wish in this era.

#### **Georgetta Watson:**

Reading a book to be new life style in this calendar year; every people loves to learn a book. When you learn a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what types of book that you have read. If you want to get information about your study, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, such us novel, comics, and also soon. The Disruptive: Rewriting the rules of physics provide you with new experience in studying a book.

#### **John Herrera:**

It is possible to spend your free time to study this book this book. This Disruptive: Rewriting the rules of physics is simple bringing you can read it in the recreation area, in the beach, train in addition to soon. If you did not possess much space to bring the particular printed book, you can buy the e-book. It is make you simpler to read it. You can save often the book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

#### **Carol Jackson:**

This Disruptive: Rewriting the rules of physics is new way for you who has interest to look for some

information because it relief your hunger associated with. Getting deeper you onto it getting knowledge more you know or else you who still having bit of digest in reading this Disruptive: Rewriting the rules of physics can be the light food for yourself because the information inside this kind of book is easy to get simply by anyone. These books develop itself in the form that is reachable by anyone, yep I mean in the e-book web form. People who think that in e-book form make them feel sleepy even dizzy this book is the answer. So there isn't any in reading a e-book especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss the item! Just read this e-book style for your better life along with knowledge.
