Professional C# 6 and .NET Core 1.0 By Christian Nagel

A true professional's guide to C# 6

Professional C# 6 and .NET Core 1.0 provides complete coverage of the latest updates, features, and capabilities, giving you everything you need for C#. Get expert instruction on the latest changes to Visual Studio 2015, Windows Runtime, ADO.NET, ASP.NET, Windows Store Apps, Windows Workflow Foundation, and more, with clear explanations, no-nonsense pacing, and valuable expert insight. This incredibly useful guide serves as both tutorial and desk reference, providing a professional-level review of C# architecture and its application in a number of areas. You'll gain a solid background in managed code and .NET constructs within the context of the 2015 release, so you can get acclimated quickly and get back to work.

The new updates can actively streamline your workflow, with major changes including reimagined C# refactoring support, a new .NET Web app stack, and the .NET compiler platform that makes C# and Visual Basic compilers available as APIs. This book walks you through the changes with a comprehensive C# review.

- Explore the new Visual Studio templates for ASP.NET Core 1.0, Web Forms, and MVC
- Learn about the networking switch to HttpClient and ASP.NET Web API's replacement of WCF Data Services
- Work with the latest updates to the event log, Windows Runtime 2.0, and Windows 8.1 deployment and localization
- Dig deep into the new .NET 5.0 GC behaviors and the Migrations addition to ADO.NET

Microsoft has stepped up both the cadence and magnitude of their software releases. *Professional C# 6 and .NET Core 1.0* shows you everything you need to know about working with C# in a real-world context.

Editorial Review

Users Review

From reader reviews:

Christopher Helland:

A lot of people always spent all their free time to vacation or maybe go to the outside with them household or their friend. Did you know? Many a lot of people spent these people free time just watching TV, or even playing video games all day long. If you want to try to find a new activity that's look different you can read a new book. It is really fun for you personally. If you enjoy the book you read you can spent the whole day to reading a book. The book Professional C# 6 and .NET Core 1.0 it is extremely good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. If you did not have enough space to bring this book you can buy often the e-book. You can m0ore quickly to read this book out of your smart phone. The price is not too costly but this book offers high quality.

Judy Young:

Playing with family in the park, coming to see the ocean world or hanging out with close friends is thing that usually you might have done when you have spare time, after that why you don't try issue that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Professional C# 6 and .NET Core 1.0, it is possible to enjoy both. It is fine combination right, you still desire to miss it? What kind of hang type is it? Oh come on its mind hangout fellas. What? Still don't have it, oh come on its identified as reading friends.

Melanie Fox:

Your reading 6th sense will not betray you actually, why because this Professional C# 6 and .NET Core 1.0 publication written by well-known writer we are excited for well how to make book that may be understand by anyone who also read the book. Written with good manner for you, still dripping wet every ideas and composing skill only for eliminate your hunger then you still skepticism Professional C# 6 and .NET Core 1.0 as good book not merely by the cover but also from the content. This is one guide that can break don't determine book by its protect, so do you still needing an additional sixth sense to pick this particular!? Oh come on your studying sixth sense already told you so why you have to listening to yet another sixth sense.

Kaye Hensley:

In this period of time globalization it is important to someone to acquire information. The information will make anyone to understand the condition of the world. The healthiness of the world makes the information easier to share. You can find a lot of personal references to get information example: internet, magazine,

book, and soon. You can observe that now, a lot of publisher which print many kinds of book. The book that recommended for you is Professional C# 6 and .NET Core 1.0 this reserve consist a lot of the information on the condition of this world now. This specific book was represented just how can the world has grown up. The vocabulary styles that writer use to explain it is easy to understand. Often the writer made some investigation when he makes this book. Here is why this book appropriate all of you.
