Motorcycles : Fundamentals, Service, and Repair (Instructor's Manual) By Bruce A. Johns, David D. Edmundson, Robert Scharff

Motorcycles covers the important aspects of the operation, construction, design, testing, maintenance, and repair of motorcycle systems and components. This title also includes operation and service material relative to all-terrain vehicles (ATVs) and small scooters/mopeds. Content is written in nontechnical language with step-by-step procedures to assist learning. This edition is up-to-date with today's theory and service procedures.

The Instructor's Manual provides numerous instructional resources that support each chapter of the textbook including teaching strategies, test masters, answer keys, introductory activities, reproducible masters, and additional resources. All of the resources for teaching each chapter are conveniently grouped together.
