## **The Dog Owner's Little Black Book** By John A. Koerner II

This 6" x 9" black & white book will become the most important investment into your dogs that you will ever make. I put a lot of work into this project, because I simply love dogs. Once you get it, I promise you will refer to it, and re-refer to it, for as long as you own your dogs. This 314-page masterpiece is packed with critical information on the proper care, breeding, and maintenance of our specialized canine companions. The material presented here is based on 20 years of experience in having raised a kennel-ful of purebred performance dogs, and it shows the serious strategies and secrets of raising quality dogs properly and successfully. It is information you won't find in any other book, because this is the information you need. I have presented this material in small-type also, because if I had presented it in regular-sized font the book would be over 500 pages. This is not a "picture book" of the pet owner kind, this is a master text and canine reference manual of the deeply important kind.

Although there are many photos and diagrams, where necessary, and although this book will be an enormous benefit to any pet owner, its true intent is to be a treasure trove of critical information that will save the serious sporting dog breeder hundreds (if not thousands) of dollars in wasted money, and no telling how many heartaches, by teaching you what to do (and what not to do) as a breeder—and how to save money doing it. From feeding properly (and economically), to revealing medical secrets, to housing and husbandry, to not just sharing proper techniques on "how" to breed dogs and raise pups, but why, there are a ton of pitfalls that a breeder can slip into during the lifetime challenge of breeding and raising top level performance dogs.

This book is intended to be your map around all the obstacles serious dog owners can and do face, leveling a clear path to where you want to go. My goal is to empower you to be your own best solution for your dogs. The material is written from a "Soldier of Fortune" perspective of self-reliance. It is designed to transform you into a truly knowledgeable dog person, on every important level.
