Today's Technician: Automotive Suspension & Steering Systems: Classroom/Shop Manuals Set By *Don Knowles*

Today's Technician: Automotive Suspension and Steering, 3E continues to strike the perfect balance between theory and practice. The new edition of this tightly coordinated Classroom/Shop Manual package is guaranteed to guide users to the expertise they need to diagnosis and service suspension and steering systems on today's cars, SUVs, and light-duty trucks. Unmatched for completeness, this edition now offers opportunities to explore the latest advancements in suspension and steering technology, including: run-flat tires, shock absorber mountings on SUVs, the effect of 42V electrical systems on power steering pumps, electronic power and four-wheel steering systems, and new wheel alignment procedures. Shop safety, including procedures for handling hazardous waste, is stressed. Cautions and warnings also appear at strategic points to reinforce the importance of following safe working procedures, while case studies and practical customer care tips play an important role in linking must-know theory to the real-life practices of today's professional, ASE-certified technicians.

Editorial Review

Review

This classroom manual/shop manual text package is designed to guide students in learning to diagnose and service suspensions and steering systems on cars, SUVs and light-duty trucks. This third edition reflects the latest advances in suspension and steering technology, including flat-run tires, shock absorber mountings on SUVs, and new wheel alignment procedures. Shop safety, including handling of hazardous waste, is stressed. The classroom manual includes chapter summaries, review questions, key terms, and marginal notes. The wire spiral-bound shop manual contains step-by-step photo sequences, professional service tips, ASE-style questions, and three-hole punched and perforated job sheets for use as exercises. The author works in automotive training. - SciTech Book News March 2003

About the Author

Don Knowles has been writing automotive training materials for over 28 years, with 54 textbooks to his credit, as well as student manuals, training CDs, and short articles for service bulletins. He was previously employed as an automotive instructor at the Saskatchewan Institute of Applied Science and Technology (SIAST) Palliser Campus, where he produced over 60 automotive training videos and wrote a computer-assisted instruction (CAI) program to coordinate with each video. Mr. Knowles is currently the owner and manager of Knowles Automotive Training, a company focused exclusively on the preparation of automotive training materials and an educational member of the Automotive Service Association (ASA). An ASE certified Automotive Technician, he has also been a member of the Society of Automotive Engineers for over 30 years, and is a member of the North American Council of Automotive Teachers (NACAT).
