Process of Patient Education By Barbara Klug Redman

This new edition retains its popular approach - an effective combination of theory, research and practical clinical information. A wealth of concrete examples, including more than 50 sample documents. The new edition features: more in-depth coverage of patient education related to specific diseases; a new discussion of ethics in patient education; new sections on developing education programmes for children and patients with AIDS; expands information on preparing materials for non-readers and patients with lower reading levels; and increase in home care and outpatient care services are thoroughly explored.
