### **From the Publisher**

STEP (Systematic Training For Effective Parenting) may be the most widely used systematic parent education program in the USA, with more than 4 million copies of these books now in print. Systematic Training for Effective Parenting is a staple for parent training in churches, preschools, schools, and community service agencies across the country. The program emphasizes natural and logical consequences, encouragement, belonging, parent-child communication skills, understanding, and family meetings.

These books are helping families all over the nation to communicate more effectively, understand each other better, and live happier, more fulfilled lives.

### **From the Author**

We believe that being an effective parent is one of the most rewarding tasks in life. It is also one of the most challenging. Many conflicting theories of child training can be found in books, newspapers, and magazines, and on television. Our parents, friends, relatives, and spouses also have their own ideas. It's easy to become confused!

STEP (Systematic Training for Effective Parenting) provides a practical approach to raising children. THE PARENT'S HANDBOOK is your guide to a philosophy of child training that we and more than three million parents have found to be effective. STEP will work for you and your family, if you put into practice the ideas and skills presented in this book.

We suggest that you pace yourself by spending a week on each chapter. Read each chapter in the order presented. During that week, study the activities and charts in the chapter. Be sure to take time to carry out the activity titled "This Week." The activities "Just for You" and "For Your Family" will help you and your family.

Many parents choose to join a STEP parent education group. Tens of thousands of groups have given parents the opportunity to discuss ideas and share experiences.

When you study and apply the ideas, you will "graduate" as a more effective parent. If you're willing to stick with it, STEP will help you take your next good steps as a parent. The skills you learn can serve as guidelines in building a happy home.
