Brought to life by case studies of principals who have led dramatic gains in student achievement, the book is a how-to guide for increasing the quality of teaching and learning; improving school culture; attracting and supporting high-performing teachers; and involving parents and community to help students achieve. You'll learn how breakthrough principals make the school's mission a real part of both strategy and practice, and set up sustainable systems that support consistent, ongoing improvement. High-impact practices are organized into five broad categories: learning and teaching, school-wide culture, aligned staff, operations and systems, and personal leadership.

The primary job of school leadership is to help students succeed. It begins with first recognizing and prioritizing areas of need, then finding and implementing the most effective solutions. Whether you work in a turn around environment, or want to make a good school better, this book will give you a set of concrete practices—illustrated through examples of real principals in real schools—that have been proven to work.

- Set the tone for all relationships and practices with good leadership

Closing the achievement gap is a major goal of educational leadership, and principals are forever searching for viable methods that help them better serve their students. *Breakthrough Principals* unveils the details behind the success

stories from across the nation to provide a roadmap to transformative gains.
