### Editorial Review

#### Amazon.com Review

A.H. Almaas presents "the holy ideas" that are the spiritual realities of the nine personality types that the Enneagram reflects. For those unfamiliar with the Enneagram, he includes an introduction to the structure of psychological typecasting rediscovered by Oscar Ichazo, founder of the Arica School, who gives this book its high credentials by having written the Foreword. While other books on the subject explain the different characteristics and behaviors of each of the nine fixations or types, Almaas expounds here on how the disconnection from each holy idea leads to the development of its corresponding fixation. Then he provides keys to unlock them. For example, the "seven" type's holy idea is "holy wisdom," which Ichazo defines as "The awareness that reality exists as a succession of moments, each experienced as the present, and that it is only by existing in the present that the constant unfolding of the Cosmos can be experienced ... can real work be done, and results achieved." --*Randall Cohan*
