### Editorial Review

#### About the Author

The **International Code Council** (ICC) is a member-focused association dedicated to helping the building safety community and construction industry provide safe, sustainable, and affordable construction through the development of codes and standards used in the design, build, and compliance process. Most U.S. communities and many global markets choose the International Codes. ICC Evaluation Service (ICC-ES), a subsidiary of the International Code Council, has been the industry leader in performing technical evaluations for code compliance fostering safe and sustainable design and construction.

**Douglas W. Thornburg, AIA, C.B.O.** is the Vice President of Education and Certification at the International Code Council (ICC), where he provides leadership in the technical development and positioning of support products, educational activities, and certification programs. Prior to joining the ICC in 2004, he served as a code consultant and educator for building codes. He has been involved extensively in building code activities since 1980.

**John R. Henry, P.E.** is the former Principal Staff Engineer at the International Code Council. During his tenure with the ICC, he worked in code development, technical services, government relations, training and education, and product development. He is currently a consulting engineer in private practice in Northern California.
